Professional Summary

Versatile software developer with expertise in building cross-platform applications for web, mobile, and desktop environments. Proven track record of developing and deploying production-ready applications using modern technologies including React Native, Next.js, TypeScript, and Electron. Currently building fintech solutions while expanding skills in AI/ML engineering. Passionate about taking on new challenges and creating seamless user experiences across all platforms.

Technical Skills

Programming Languages

- JavaScript, TypeScript, Python, Kotlin, Swift, HTML5, CSS3, SCSS, Bash

Web Development

- React, Next.js, Vite, Node.js, Express, Django, Flask, Tailwind CSS

Mobile Development

- React Native, Capacitor, Ionic, Native Modules, Expo, Jetpack Compose (Kotlin), SwiftUI

Desktop Development

- Electron

Development Tools & Platforms

- Git, VS Code, Android Studio, Xcode, GitHub

Currently Learning

- Machine Learning & AI Engineering, TensorFlow, PyTorch, scikit-learn, Deep Learning

---

Work Experience

Software Developer | Credlock-Africa

Nigeria | *January 2025 - Present*

- Building cross-platform applications (web, mobile, and desktop) for fintech solutions
- Developing and maintaining financial technology products serving customers across Africa
- Working with modern tech stacks including React Native, Capacitor, Ionic, TypeScript, and Native Modules
- Contributing to the development of loan management and merchant applications

Junior Developer | Anter Technologies

Nigeria | *[Month Year] - [Month Year]* (3 months)

- Built FairShop Marketplace mobile application using React Native, TypeScript, and Expo
- Developed FairShop Admin mobile application for marketplace management and operations
- Created ControlFind web application using Next.js and TypeScript
- Successfully deployed multiple production applications to iOS App Store and Google Play Store
- Collaborated with cross-functional teams to deliver high-quality software solutions

Software Development Intern | Anter Technologies

Nigeria | *[Month Year] - [Month Year]* (6 months)

- Completed intensive developer training program and transitioned to full development role
- Gained hands-on experience in mobile and web application development
- Worked with React Native, TypeScript, and modern development workflows
- Contributed to real-world projects and learned industry best practices
- Developed proficiency in Git version control and agile development methodologies

---

Projects

FairShop Marketplace Mobile App

Tech Stack: React Native, TypeScript, Native Modules, Expo - Complete e-commerce marketplace mobile application connecting buyers and sellers - Developed full-featured marketplace with intuitive user interface - Implemented real-time product browsing and secure checkout functionality - Successfully deployed to iOS App Store and Google Play Store - **Company:** Anter Technologies

FairShop Admin Mobile App

Tech Stack: React Native, TypeScript, Native Modules, Expo - Administrative mobile application for managing marketplace platform, inventory, and operations - Built comprehensive admin dashboard accessible on mobile devices - Implemented real-time inventory management and order processing systems - Streamlined marketplace operations and vendor management - **Company:** Anter Technologies

ControlFind Web Application

Tech Stack: Next.js, TypeScript - Web application connecting companies with recruiters for efficient talent acquisition - Developed streamlined recruitment process connecting companies and recruiters - Implemented efficient talent matching and application management features - Bridging the gap between businesses and recruitment professionals - **Company:** Anter Technologies

---

Education

Self-Taught Software Developer

Intensive Online Learning & Professional Training

Completed comprehensive software development education through highly regarded online courses, bootcamps, and hands-on project experience. Demonstrated strong self-motivation and ability to learn complex technical concepts independently.

FairShop Developer Training Program

Anter Technologies | *6 months* - Intensive hands-on training in mobile and web application development - Focused on React Native, TypeScript, and modern development practices - Successfully transitioned to Software Development Intern role upon completion

---

Certifications

- **CS50's Introduction to Computer Science** - Harvard University (edX)
- **CS50's Introduction to Programming with Python** - Harvard University (edX)
- **CS50's Web Programming with Python and JavaScript** - Harvard University (edX)
- **Responsive Web Design Certificate** - FreeCodeCamp
- **JavaScript Algorithms and Data Structures Certificate** - FreeCodeCamp

---

Professional Development

- Currently expanding skills in Machine Learning and AI Engineering
- Learning AI/ML frameworks: TensorFlow, PyTorch, scikit-learn
- Studying Deep Learning, Neural Networks, and Data Science techniques
- Actively pursuing transition into AI Engineering role

Key Strengths

- **Cross-Platform Development:** Expertise in building applications for web, mobile (iOS/Android), and desktop platforms
- **Full-Stack Capabilities:** Proficient in both frontend and backend development
- **Fast Learner:** Self-taught developer with proven ability to quickly master new technologies
- **Problem Solver:** Passionate about taking on new challenges and finding innovative solutions
- **Production Experience:** Successfully deployed multiple applications to major app stores

---

Additional Information

- **Interests:** AI/ML Engineering, Cross-platform development, FinTech solutions
- **GitHub:** github.com/daboss2003
- **Portfolio:** Building cross-platform applications across web, mobile, and desktop
